Previous Portland Audubon Community Science projects

1. **Portland's EcoRoof Avian Monitoring Project** (2012-14): Study examined bird use of ecoroof habitat at several buildings in Portland compared to conventional roofs, and ground-level parks.

5. **Shorebird usage of Racetrack Lake, Sauvie Island during fall migration** (2014)

8. **Grassland bird monitoring at Sauvie Island Wildlife Area** (2015-17)

10. **Streaked Horned Lark Patrol** (2018-2020): monitored for larks at key sites on Sauvie Island
